**VOYAGER JET CENTER EXPANDS FLIGHT OPERATIONS INTO SOUTHWEST FLORIDA**

*Midsize Hawker 800A ready to fly at Naples Municipal Airport*

PITTSBURGH, January 22, 2007 – Voyager Jet Center, LLP (VJC), a leading private aircraft management and flight services company, has responded to customer demand by adding service to Southwest Florida with a Raytheon Hawker 800A now based at Naples Municipal Airport. (APF).

VJC's Naples operation is available for on-demand charter and is supplemented by additional aircraft as needed. VJC also offers Aircraft Management, Acquisition and Consulting services from the Naples facility. VJC's deeply experienced flight and line crews operate several executive jets from Allegheny County Airport (AGC), just outside Pittsburgh, where VJC offers complete Fixed Based Operator (FBO) capabilities.

The Hawker 800A is the most popular midsize corporate jet in its class and comfortably seats eight passengers. VJC's Hawker 800A is exquisitely appointed, boasts a cruising speed of 500 mph, a service ceiling of 41,000 feet and a range of 2,750 statute miles—the ideal blend of speed, range, comfort and style.

“Expanding our flight operations into Southwest Florida reflects our continued commitment to meeting the market demand of our client base, while eliminating ferries and deadheads for those flying to and from Naples,” said Karl Foerster, VJC Vice President of Operations. “This expansion will not only benefit current customers, but Southwest Florida executive travelers looking for an established and experienced company to satisfy all of their private aviation needs.”

“Building on our world-class reputation for service excellence and our extensive experience operating Voyager Jet Center in Pittsburgh and Yellowstone Jetcenter in Bozeman, Montana, we are pleased to solidify our presence in Southwest Florida,” said Rich Ryan, President of VJC. “As one of the most popular vacation and second home destinations in Florida, we are responding to our client’s growing demand for quality aviation services.”

**About Voyager Jet Center**
